SUMMARY

Full-Stack Web Developer specializing in modern, responsive websites and web applications using Next.js, React, Django, and PostgreSQL. I build professional websites for businesses, creators, and personal brands, with a focus on clean UI, responsive design, performance, and reliable deployment. I can handle the complete process from development and deployment to ongoing maintenance.

SKILLS

Programming: Python, SQL, JavaScript

Data Analytics: Pandas, NumPy, Data Cleaning, Data Preprocessing, Exploratory Data Analysis, Data Visualization, Feature Engineering

Machine Learning: Scikit-learn, Classification, Regression, Model Evaluation, Model Comparison, NLP, TF-IDF, Cosine Similarity

Data & AI: Statistical Analysis, Recommendation Logic, Scoring Systems, Google Gemini API, LLM APIs, Prompt Engineering

Databases: PostgreSQL, SQLite, Database Design, SQL Queries

Development Tools: Jupyter Notebook, Streamlit, Git, GitHub, Postman

Backend: Django, Django REST Framework, REST APIs, JSON, ORM, CRUD Operations

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

EXPERIENCE

Artificial Intelligence Intern | IBM SkillsBuild × Edunet Foundation × AICTE

May 2026 – Jun 2026

- Developed a Python-based AI/ML application during a six-week IBM SkillsBuild internship.
- Performed data cleaning, preprocessing, transformation, and exploratory data analysis on structured datasets.
- Applied feature engineering and machine learning techniques to prepare datasets and evaluate model performance.
- Analyzed model outputs and presented findings as part of an end-to-end Python-based AI/ML solution.

Python Django Developer Intern | BrainyBeam

Sep 2022 – Oct 2022

- Developed backend applications using Python and Django.
- Designed REST APIs for data management, authentication, and application workflows.
- Worked with PostgreSQL and SQL queries to build database-driven application features.
- Developed reusable backend modules and collaborated with the development team.

PROJECTS

AutoML Studio

Python | Pandas | NumPy | Scikit-learn | Streamlit | SQL | Data Analytics | React

- Built a Python-based AutoML platform for data preprocessing, exploratory data analysis, model training, and evaluation.
- Automated data preprocessing including missing-value handling, outlier detection, categorical encoding, and feature scaling.
- Implemented classification and regression workflows with automated model comparison and evaluation.
- Generated interactive analytical reports containing data visualizations, feature importance, and model performance metrics.

Resume ATS Ranker

Python | Django REST Framework | PostgreSQL | Scikit-learn | NLP

- Developed an ML-based resume screening platform for candidate analysis, scoring, and ranking.
- Used TF-IDF vectorization and Cosine Similarity to extract textual features and measure resume-job-description relevance.
- Implemented preprocessing and NLP workflows to transform unstructured resume and job-description text into machine-readable representations.
- Designed scoring logic to rank candidates based on their relevance to specific job requirements.
- Developed REST APIs using Django REST Framework and integrated PostgreSQL for candidate and application data.

AI Resume & Portfolio Builder

Python | Streamlit | Google Gemini API | LLM | Prompt Engineering | python-docx

- Built a Python-based AI application to generate resumes, cover letters, and portfolio content.
- Integrated Google Gemini API to generate structured content from user-provided information.
- Developed prompt-based workflows and a multi-tab Streamlit interface for content generation.
- Implemented automatic DOCX generation and export using python-docx.

EDUCATION

Bachelor of Engineering - Computer Engineering

2024 – 2027 (Pursuing)

LDRP-ITR, Gandhinagar, Gujarat • Current CPI: 7.42

Diploma in Computer Engineering

2021 – 2024

VPMP Polytechnic, Gandhinagar, Gujarat • CPI: 9.28 | CGPA: 9.26

ACHIEVEMENTS & CERTIFICATIONS

-
- Stanford University Machine Learning Certification – Coursera
 - NPTEL Elite Certification – Python for Data Science, IIT Madras (Score: 68%)
 - Academic Excellence – Achieved 9.26 CGPA in Diploma and maintained 7.42 CPI in BE
